

CHI Ticketing Information for the 2021 NSAA State Wrestling Championships

In the observance of best safety practices and the assurance of social distancing, the ticketing process for the 2021 NSAA State Wrestling Tournament will look different than prior years.

- First, tickets will be sold individually (as opposed to by team and/or school) on Ticketmaster.com;
- All ticket sales will be purchased digitally and received digitally;
- To limit potential touchpoints, physical tickets are no longer available;
- Tickets may be purchased in pods of two, four and **six**. **Pods may not be split.**
- All of the tickets within a pod must be purchased.
- **Due to Ticketmaster policy, each pod purchased will need to be a separate credit card transaction**
- **Tickets for each session are \$9 a piece with a \$1.75 Ticketmaster fee for a total of \$10.75 per ticket**
- Availability will be based upon approved capacity from the State Governor's Office and Douglas County Health Department (DCHD).

Tickets will be sent to a purchaser via email. For entry, a guest may either access tickets directly from their email inbox or by utilizing the Ticketmaster smartphone app. CHI Health Center Omaha staff members can scan a QR code directly from a visitor's smart device. Guests will keep their phone(s) in their own possession at all times.

MECA and the NSAA continue to collaborate on and determine needed modifications in order to receive necessary approval from local health officials for the 2021 tournament.

The event plan will be submitted to the Douglas County Health Department the first week in January and the plan is for tickets to go on sale at 10 AM on January 19th.

More information will become available in the new year; until then, CHI Health Center Omaha is thankful for the community's patience and understanding while we all navigate the uncertainties of this pandemic. We jointly remain committed to taking the appropriate steps in order to ensure a safe and successful event.
